We strive to surprise our customers time and again with the most beautiful bathroom furniture

Sanibell designs, develops and manufactures bathroom furniture and sinks in-house for the plumbing market. Product development, quality, innovativeness and delivery of the complete program from stock are the cornerstones of the company's success. Our business strategy is based on optimal service, fast stock deliveries, reliability, quality and passion for design. We strive to surprise our customers again and again with quality, functional and creative products that continue to inspire. We have been doing this for almost 45 years and we are very proud of that.

LEGEND

-  Including space-saving furniture siphon
-  Handleless push to open system in conjunction with softclose Blum drawer system
-  Softclose Hettich drawer system
-  Recess for siphon in the top drawer
-  No recess for siphon in drawer(s)
-  Self-assembly panels
-  Sensor switch lighting
-  Mirror heating (optional)
-  Washbasin can also be wall mounted
-  Washbasin with (concealed) overflow
-  Height of sink
-  Hallmark authentic Italian porcelain
-  Scratch resistant

40 | DOCK

One design. Available in different materials

The Dock 40 has a polystone or quartz sink as its base and is available in 4 width sizes. And if you then consider that the cabinet is only 40 centimeters deep, you will keep enough room to move around in the bathroom.

Shallow and space-saving

Shallow and space-saving does not mean that there is little storage space. The double drawers are quite spacious and feature a smooth-running soft-closing drawer system. The handleless lacquered furniture has a sleek 45-degree finish on the top of the front. The base cabinets with the handleless rim also feature the same types of double drawers. The program offers a choice of 8 different modern lacquer colours, 11 wood decor colours with tactile texture and 4 real wood veneer colours. This bathroom cabinet can be expanded with (semi) tall cabinets in all lacquered, wood decor and wood veneer colours.

Quartz maintenance tip

It is important to remove spills immediately with plenty or warm water. It must be prevented from affecting the stone. Usual mild household cleaners and a microfiber cloth can simply be used for this purpose. Do not use caustic or aggressive cleaning agents. It is important to dry the surface well with a clean, soft cloth after use. For cleaning and maintenance of surfaces, we have a special Tenax Care Kit available in the webshop. For more information, see page 468.

40 | REFLEKT

Reflekt washbasin

You would say extended due to success, but we have narrowed our Faktor washbasin to 40 cm deep. We call this gain "Reflekt". Reflekt is available in matt and gloss polystone in sizes 60 cm to 120 cm wide. This washbasin fits perfectly on all INK 40 deep base cabinets and is available in all sizes with a large central basin and sizes 100 and 120 cm also with a smaller basin in the middle, creating more storage space on the left and right.

ROOTS

40 | ROOTS

A beautiful glossy, porcelain basin just 40 cm deep and a build-up height of 6 cm.

A combination of narrow and slim in four ideal width sizes. This modest 40 cm deep basin is especially for space-saving setups. Combine this with a 40 cm deep, two-drawer lower cabinet and you will be amazed at the practical space and, of course, the beautiful look. Space to spare? Then combine the base cabinet with a tall of semi-tall cabinet for even more practical storage space. The lacquered versions of the tall cabinets are available in both 20 cm and 35 cm depths.

Roots cabinet 100 cm handle-less veneer charcoal and washbasin in porcelain gloss white

60 CM

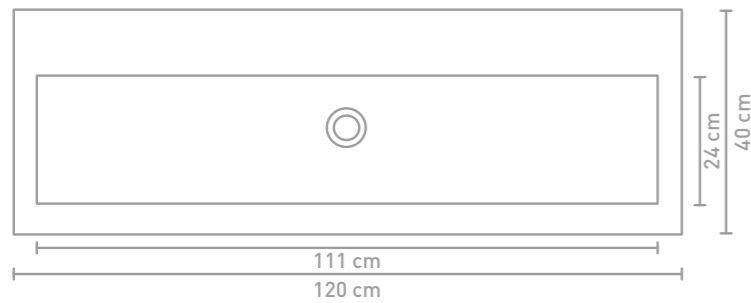

80 CM

100 CM

120 CM

Porcelain sinks are subject to tolerances due to the manufacturing process, so the actual size is almost always larger than the stated (rounded) width dimensions. The reason behind this is that the washbasin must fall well over the base cabinet.

40 | UNIT

Functional and space-saving

This Unit is specially designed for the smaller bathroom. Its shallow dimensions of just 40 centimetres automatically create more room to move around in the bathroom. The lacquered tall cabinets in this series are available at both 20 cm and 35 cm deep.

A porcelain washbasin in 40 cm deep version

Units' innovative design is a combination of design and technology. By incorporating a hidden overflow system directly into the basin, the basin cannot overflow. The porcelain 'click' plug - which falls perfectly recessed into the basin - ensures that the basin can be properly closed with a simple operation.

Additional storage space

A half-height cabinet gives extra storage space in the bathroom, but also makes the room appear optically larger due to its limited height. A special tall cabinet has also been designed for this series. This space-saving cabinet is only 20 cm deep, has a mirror on the inside and provides plenty of space to move around in the bathroom. This tall cabinet is available in all lacquered colours.

More than a bathroom furniture

The Topdeck is the furniture with which you can combine endlessly. With a depth of 40 cm, this series has a wide choice of widths, base cabinets and innovative built-in washbasins. The bathroom furniture adapts completely to your wishes. So you can create a sleek and modern or, on the contrary, a rural and classic piece of furniture. A unique piece of furniture with optimal comfort.

Less is more. The 40-centimetre-deep base cabinets with the handleless rim combine effortlessly with the extra-slim surface-mounted washbasins. The spatial effect of the shallow cabinet with its beautiful wood structures gives the bathroom a modern look.

40 | COVER PLATES

The beautiful wood decors and wooden veneer cover plates combine beautifully with the bathroom furniture you have created. You can really go either way with the extensive collection of cover panels. There is something for everyone.

We also have an extensive range of wall shelves in the wood decor collection in two depths (20 and 35 cm) for the finishing touch (and, of course, extra storage space) in the bathroom. For more information see section Wall shelves on page 450.

40 | CABINETS

In the INK collection, you can choose from 4 different types of base cabinets; double drawers handleless with alu rim, double drawers handleless wood rim, double drawers handleless lacquered and double drawers handleless wood veneer. Also ideal for contemporary setups with a surface-mounted bowl as in the Topdeck. In that case, don't forget to order a cover plate. Even in the 40 cm deep collection, creativity is not bound by size. All base cabinets are fitted with high-quality German suspension and drawer systems and, of course, all have soft-close. Now go and select the most beautiful design in combination with the most beautiful colour for your bathroom. That won't be easy... We think they are all worth it. If you have a bit more space in the bathroom... then choose the collection in 45 cm depth. Then you will have even more choice and thus more storage space.

*Coloured by Rubio Monocoat

No tree is the same. Our knotty oak veneered or solid oak furniture can sometimes have some colour differences in the cabinets between them. These possible colour differences are often easy to solve yourself with the Rubio Monocoat maintenance package in the colour of the furniture. With a few drops of oil on a cloth, the furniture can easily be re-coloured.

MOMENTO

45 | MOMENTO

Minimal timeless design, most extensive assortment

The MOMENTO washbasin with its familiar deep basin, minimal design and clean lines is characterised by timeless design. Dutch design at its best. The Momento is not only available in polystone gloss white and matt white, but also in quartz grey, quartz black and quartz concrete. So you can make a great combination with those beautiful bathroom cabinets from INK.

The Momento washbasin is available in 9 width sizes. From 60 to 180 centimetres wide. The 100, 120 and 140 cm washbasins are now also available in an asymmetrical version. So with lots of storage space all around. The Momento washbasin can be combined with all types of base cabinets, open shelves in veneer and the black steel frames. The Momento is rightly the washbasin with the most extensive possibilities.

Momento 100 cm asymmetrical cabinets push to open aqua horizontally milled and washbasin in quartz concrete

In combination with an asymmetrical washbasin, the above base cabinets can be combined with regals in veneer or steel.

** Consists of 2 base cabinets

Momento cabinet 180 cm matt white lacquered and washbasin in polystone matt white

Momento cabinet 160 cm matt black lacquered and washbasin in quartz concrete

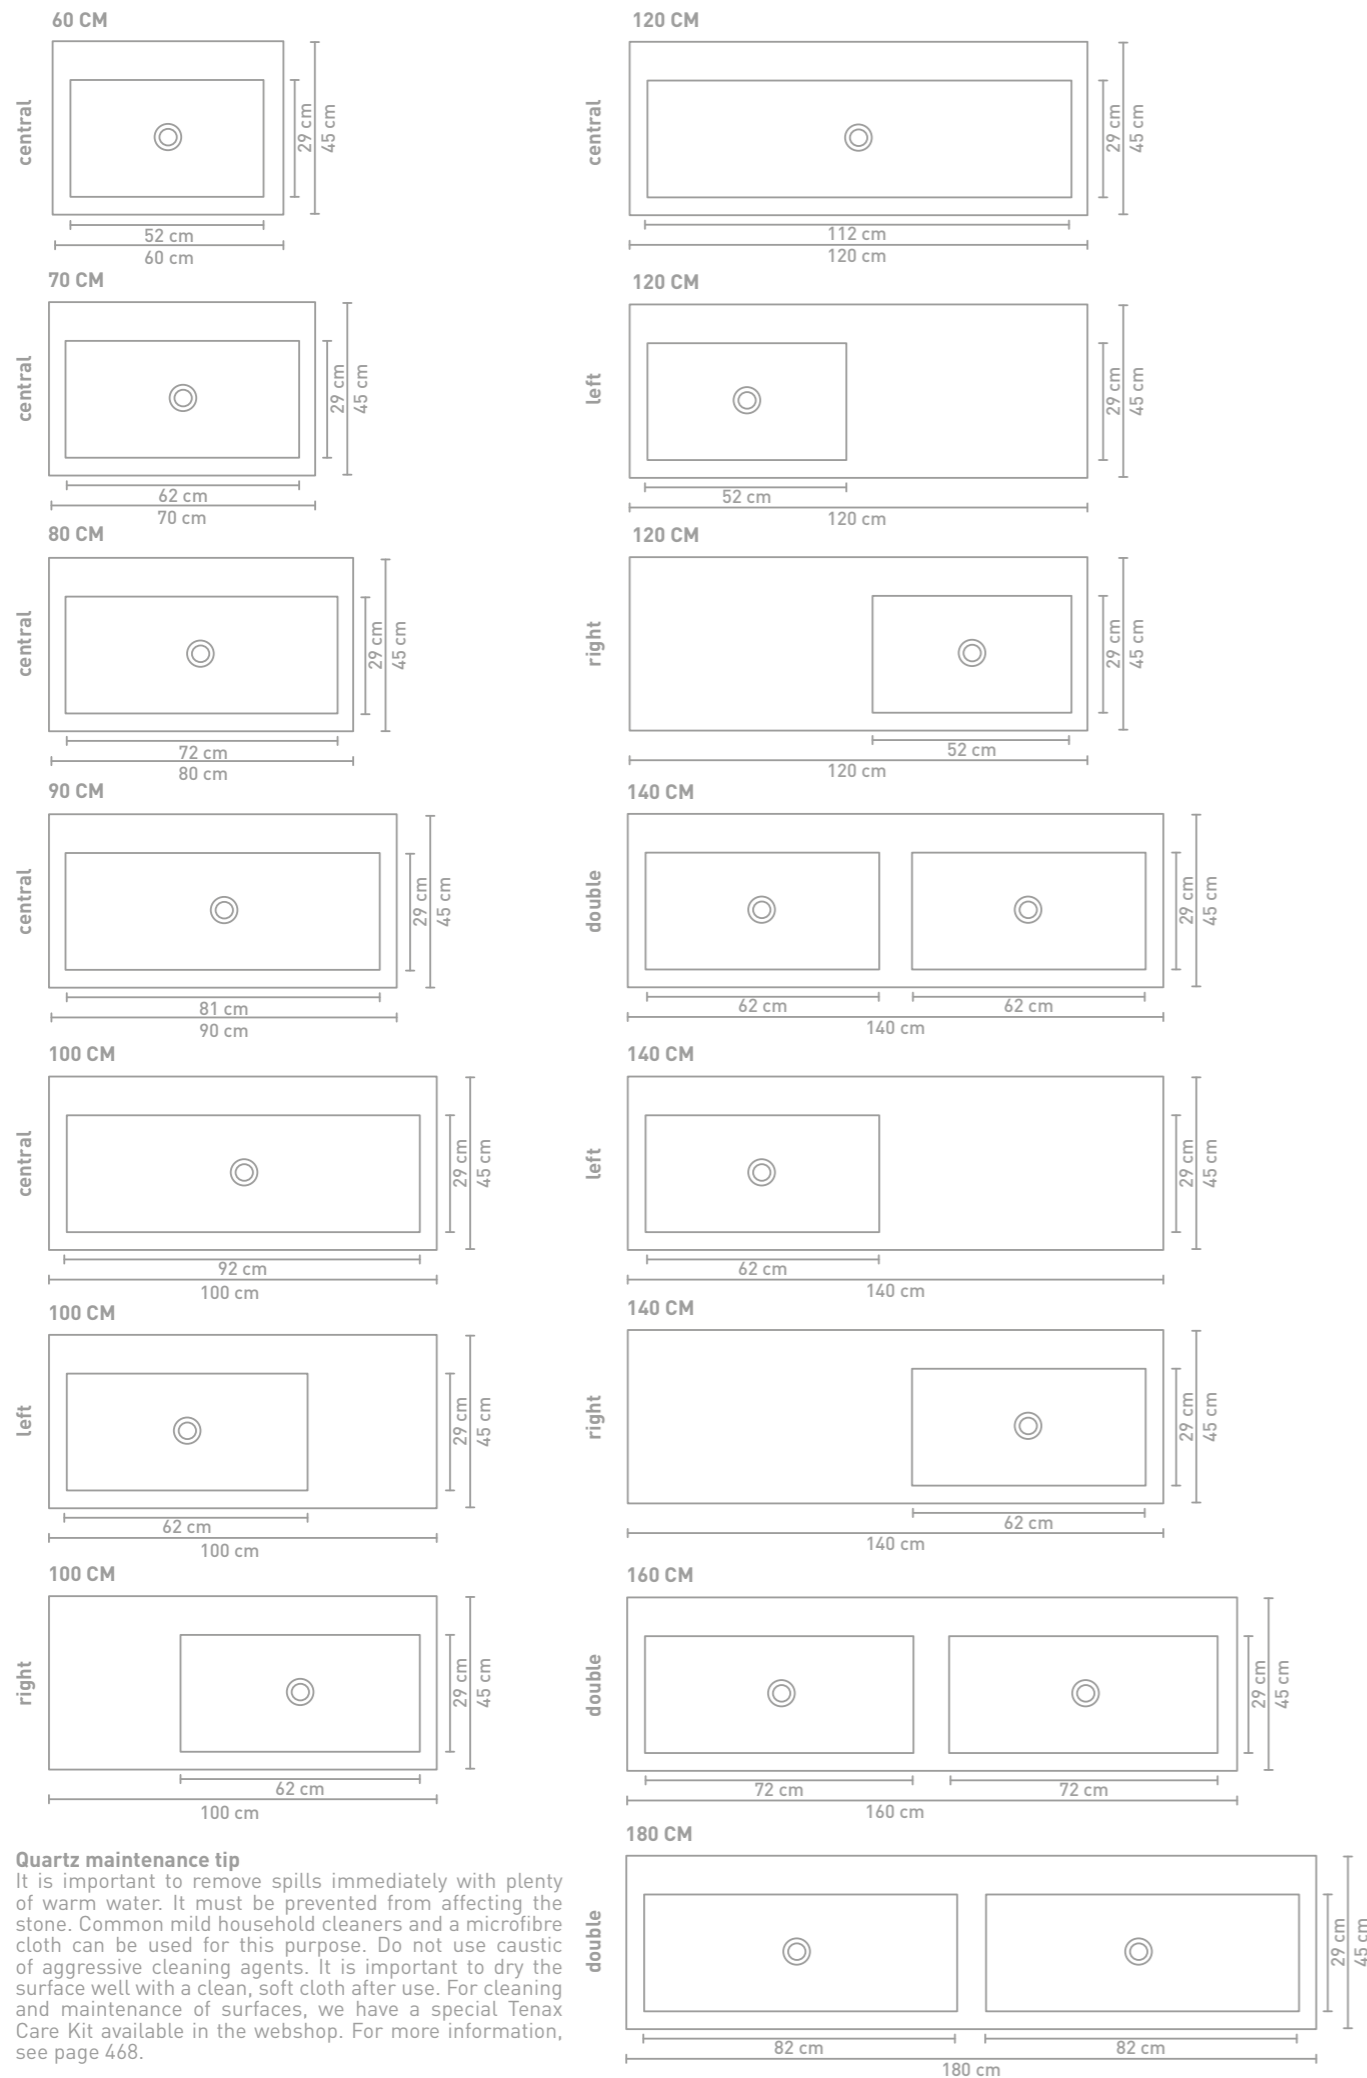

Momento cabinet 140 cm wood rim walnut and washbasin in polystone matt white

Momento cabinet 140 cm push-to-open solid charcoal and washbasin in quartz black

Size details - check our website for detailed technical information

Quartz maintenance tip

It is important to remove spills immediately with plenty of warm water. It must be prevented from affecting the stone. Common mild household cleaners and a microfibre cloth can be used for this purpose. Do not use caustic or aggressive cleaning agents. It is important to dry the surface well with a clean, soft cloth after use. For cleaning and maintenance of surfaces, we have a special Tenax Care Kit available in the webshop. For more information, see page 468.

45 | SMOOTH

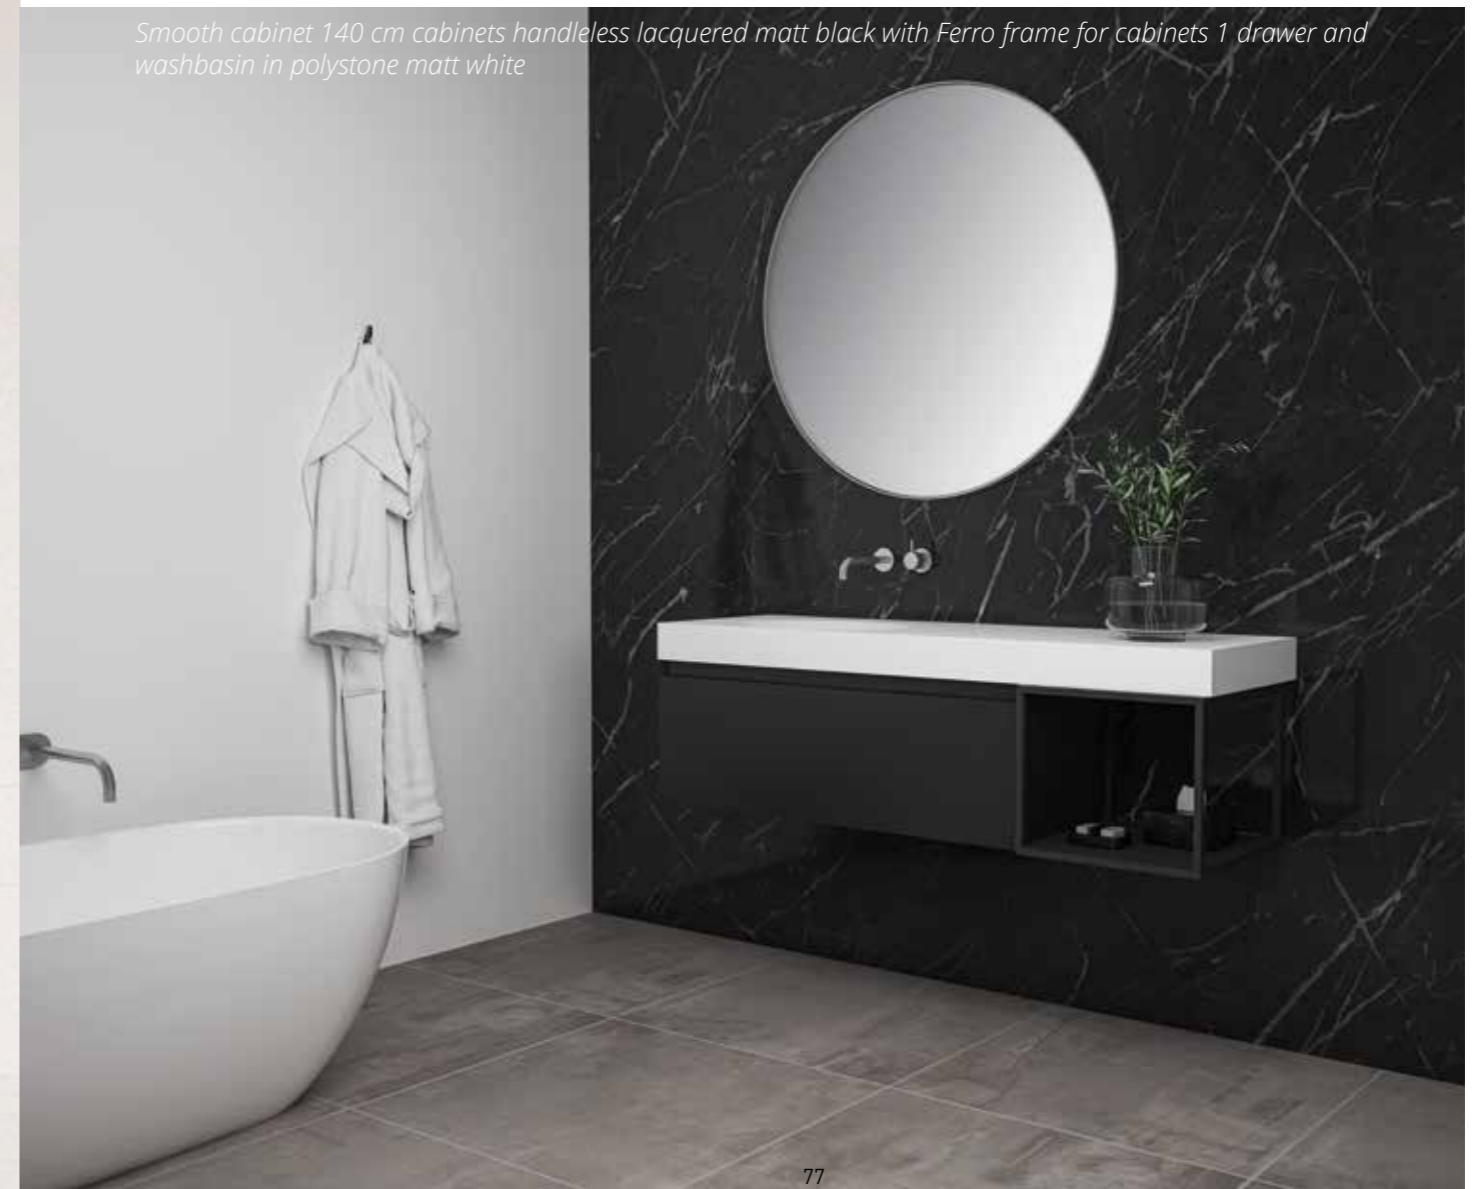

Flowing polystone with plenty of storage space.

The name gives it away, this new washbasin in the INK family is Smoooooth. You can find many things about this beautiful, smooth and soft-shaped polystone washbasin but smooth it certainly is. In this beautiful and smoothly formed inner basin, the water runs smoothly and gently towards the drain. Characteristic is the combination of the sloping inner basin with high washbasin skirts. The new Smooth washbasin comes in seven widths from 60 to 180 cm, in gloss white or matt white and with plenty of storage space around the inner basin. Naturally, this washbasin combines well with all the base cabinets in the INK range.

45 | FAKTOR

Modern, versatile and wonderfully spacious

With the Faktor we're going big. The sleek INK Faktor is a modern and spacious polystone washbasin up to 160 cm wide. If you like lots of storage space and ease of use, this is the ideal piece of furniture. Choice with a large shelf or an extra spacious washbasin. There is so much choice. The 120 cm washbasin is now also available with a double basin. A washbasin with a super-modern basin that already gives a familiar feeling in the INK collection. You can choose between a gloss white or matt white version. This washbasin combines well with all one and two drawers base cabinets from the INK program. The Faktor washbasin also feels perfectly at home on the spacious push-to-open cabinets.

Size details - check our website for detailed technical information

All bathroom furniture, in combination with a Kraft washbasin, always has a standard bottom recess in the top drawer(s), at the location of the siphon(s).

Optional

The washbasin includes always open plug in the colour of the washbasin, if you would like a click plug free of charge please state this with your order.

Quartz maintenance tip

It is important to remove spills immediately with plenty of warm water. It must be prevented from damaging the stone. Common mild household cleaners and a microfibre cloth can be used for this purpose. Do not use caustic or aggressive cleaning agents. It is important to dry the surface well after use with a clean, soft cloth. For cleaning and maintenance of surfaces, we have a special Tenax Care Kit available in the webshop. For more information, see page 468.

70 CM

100 CM

120 CM

Due to the manufacturing process, porcelain washbasins are subject to tolerances, so the actual size is almost always larger than the stated (rounded) width dimensions. The reason behind this is that the washbasin must fall well over the cabinets.

45 | UNLIMITED

Beautiful porcelain with thin edges and a spacious basin

The Unlimited washbasin is made of beautiful Italian porcelain and available in 7 widths. In short, a practical washbasin with the allure of a designer model.

With a passion for porcelain

The Unlimited porcelain washbasin can be combined with all spacious lower cabinets 45 cm deep. But the Unlimited lets you do something extra. Because this washbasin can be freely hung on the wall. You then create even more space in the bathroom and can be cleverly combined with single drawer cabinets. The creative possibilities with this washbasin are indeed unlimited. Also check out the 120 cm version with a single washbasin.

UNITED

45 | UNITED

The United washbasin is available in four beautiful porcelain colours; gloss white, matt white, matt basento and matt black and features a recessed porcelain plug and hidden overflow. This washbasin combines wonderfully well with all INK base cabinets. We ourselves are very enthusiastic about the combination with the spacious push-to-open cabinets. This creates a breathtaking arrangement with lots of storage space and a stylish look. With a choice of 7 widths, you will always find a washbasin in your desired size.

The United washbasin comes standard with a recessed click plug in the colour of the washbasin.

45 | ASPEKT

Beautiful porcelain in lots of sizes and designs.

In gloss white or matt white and always with that distinctive spacious washbasin. Sleek, flat and slim, those are surely the most important features of this washbasin. What previously seemed impossible in porcelain has now been achieved. A washbasin that is nice and spacious, has plenty of storage space and looks beautifully thin. The 120 cm washbasin is now also available with double basin. This washbasin series is very complete and the combinations with our base cabinets are almost unlimited.

Aspekt cabinet 120 cm push-to-open ash grey vertical milled and washbasin in gloss white porcelain

160 CM

Due to the manufacturing process, porcelain washbasins are subject to tolerances, so the actual size is almost always larger than the stated (rounded) width dimensions. The reason behind this is that the washbasin must fall well over the cabinets.

POST

45 | POST

The washbasin Post is made of 10 mm thick ceramic tile material with superior technical properties. The 100% natural, ceramic tile material is made of granite materials, glass minerals and natural oxides. These tile slabs are compressed under extremely high pressure and then passed through a furnace at a temperature of 1,200 degrees. This compacting process creates a hard and aesthetic tile material that is low-maintenance, non-porous and particularly scratch- and heat-resistant, and also guarantees a long lifespan. These slim ceramic washbasins come in 7 widths and are available in 3 matt colours: white marble (Calacatta matt), grey marble (Armani Grey matt) and black marble (Lauren Black Matt) and 1 gloss white marble colour (Statuario Gloss). The Post washbasin has a washbasin with a central, sloping envelope base and combines well with all 45 cm deep base cabinets in the INK collection.

Post cabinet 120 cm push-to-open chocolate horizontal milled and washbasin in Calacatta matt

45 | PITCH

The Pitch is a beautiful, raised ceramic washbasin with a sloping washbasin with a drain made of the same strong ceramic material in the same colour. The drain camouflages the water outlet and can be easily removed for maintenance with the handy, included suction cup. Just like the Post washbasin, this washbasin is made of the extremely strong 10 mm thick ceramic tile material in 7 widths and available in 3 matt colours: white marble (Calacatta matt), grey marble (Armani grey matt) and black marble (Lauren black matt) and 1 gloss white marble colour (Statuario gloss).the Pitch washbasin can easily be combined with all 45 cm deep base cabinets in the INK collection.

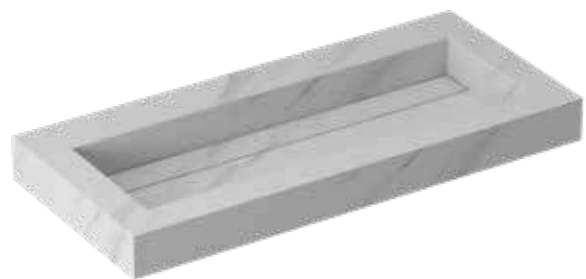

PITCH

More than just a bathroom cabinet

The Topdeck is the furniture with which you can combine endlessly. This series is truly complete. With a wide choice of widths, colours and washbasins on top, you are spoilt for choice. You can, for instance, choose an asymmetrical arrangement with a built-in washbasin on one side and create a nice spacious shelf on the other side.

With the versatile Topdeck 45, you can go all creative. With a choice of various surface-mounted washbasins and base cabinets, it would be crazy not to be able to choose. And what about the wide choice of widths up to 180 centimetres! The depths are always 45 centimetres. Plenty of room for a unique bathroom.

Design tip:

For a playful effect in the bathroom, an asymmetrical arrangement can be chosen, for example. Placing the bowl on one side creates a large shelf on the other side.

45 | SMART XL

Solid, tough and stylish.

The 'small' Smart was already a well-known version in the INK hand washbasin collection. We received more and more requests for a larger version for the bathroom on which the washbasins can be placed. We didn't have to think about it for long. We are fans of this minimalist washbasin! Nice and different. Moreover, this beautiful, slim frame can be combined with an INK washbasin bowl and cabinets in the colour of your choice. And just like the 'small' Smart, the Smart XL is available in matt black and matt white. Plenty of choice. The drain hole for the basin is already prepared at the factory. However, for the basin tap, we recommend choosing a wall-mounted version. The single versions also have a towel recess. Handy and stylish. Now all you have to do is choose the version you want. Left or right. And, of course, that beautiful basin that can be fitted.

Smart XL 120 cm matt black with cabinets lacquered matt black and surface-mounted bowl Otello 40 porcelain matt black

Smart XL 140 cm matt white with 2x cabinets lacquered matt cashmere grey and surface-mounted bowl Otello 40 porcelain matt white

FERRO

45 | FERRO

Black steel. Totally contemporary!

The black steel of the Ferro frames have won a permanent place in the bathroom. At Sanibell, we love it. Anyone who has visited our showroom should be able to emphasise that. The INK Ferro, which incidentally means iron in Latin, is a black steel accessory that can be used to give washbasins and bathroom furniture an exciting upgrade. With these 45 cm deep, black powder-coated frames, you can combine wonderfully with INK's washbasin and furniture collection. New in the INK Ferro range are the black steel shelves for the base and mirror cabinets. And with a steel wall cabinet or (half)tall cabinet, you can bring your bathroom completely in style. We are curious to see what combinations you will come up with with this extensive INK Ferro collection.

45 | COVER PLATES

With the extensive collection of cover plates, you really can go either way. You can choose from beautiful wood decors, lacquer colours, solid oak and veneer oak variants. A ceramic 'slab' variant has also been added. This makes the choice even greater. This extensive collection of cover plates can be perfectly combined with the bathroom cabinet you have created. Naturally, these cover plates also fit perfectly on the black steel Ferro frames. A minimalist and spacious combination that will give the bathroom a super-modern and exciting look. In the wood decor and wood veneer collection, we also have an extensive collection of wall shelves in two depths. For more information see section wall shelves.

Colours

No tree is the same. Our with knotty oak veneered or solid oak furniture can sometimes have some colour differences between the cabinets. These possible colour differences are often easy to solve with the Rubio Monocoat maintenance package in the colour of the furniture. With a few drops of oil on a cloth, the furniture can easily be re-coloured.

Extravagant and exciting. Slim and gorgeous

Extravagant, perhaps that is the first thing you should probably think of when this slender and slender washbasin comes under your eyes. This breathtaking, with craftsmanship-made Italian porcelain washbasin is indeed one of the showpieces in the INK range. An exception in terms of dimensions. In fact, the washbasins have a unique depth measurement of 48 cm. We liked it so much that we built a complete collection around it. Beautiful 1-drawer base cabinets in the latest colours and spatial and transparent black steel frames for a hyper-modern bathroom.

These slim and slender porcelain basins are available in four widths; 48, 80, 100 and 120 cm, with the largest version also available with two sinks. With or without tap holes. No problem. The INK UFO base units with a single drawer are also available in 4 widths and 4 colours and are ideal for combining with the existing INK mirror cabinets and (semi) tall units series. For the base cabinets, we have also developed a sleek steel matt black handle that combines perfectly with the beautiful colours of the cabinets.

UFO

UFO cabinet 80 cm charcoal oak with handle in matt black and washbasin in porcelain high-gloss white

UFO cabinet 120 cm walnut with handle matt black and washbasin in porcelain gloss white

UFO frame 80 cm washbasin in porcelain gloss white

(SEMI) TALL CABINETS TALL CABINETS

You never really have enough storage space. The INK collection of tall and semi-tall cabinets is extremely extensive. Handle-less versions with rim, the lacquered versions or the versions with handles. We have it all. And of course in all the colours of the INK base cabinet collection.

For most tall and half-height cabinets, we now also have an extendable laundry basket available. You have to sacrifice a glass shelf for it, but then you have a place for your dirty dry laundry. See the price pages for which cabinet this applies.

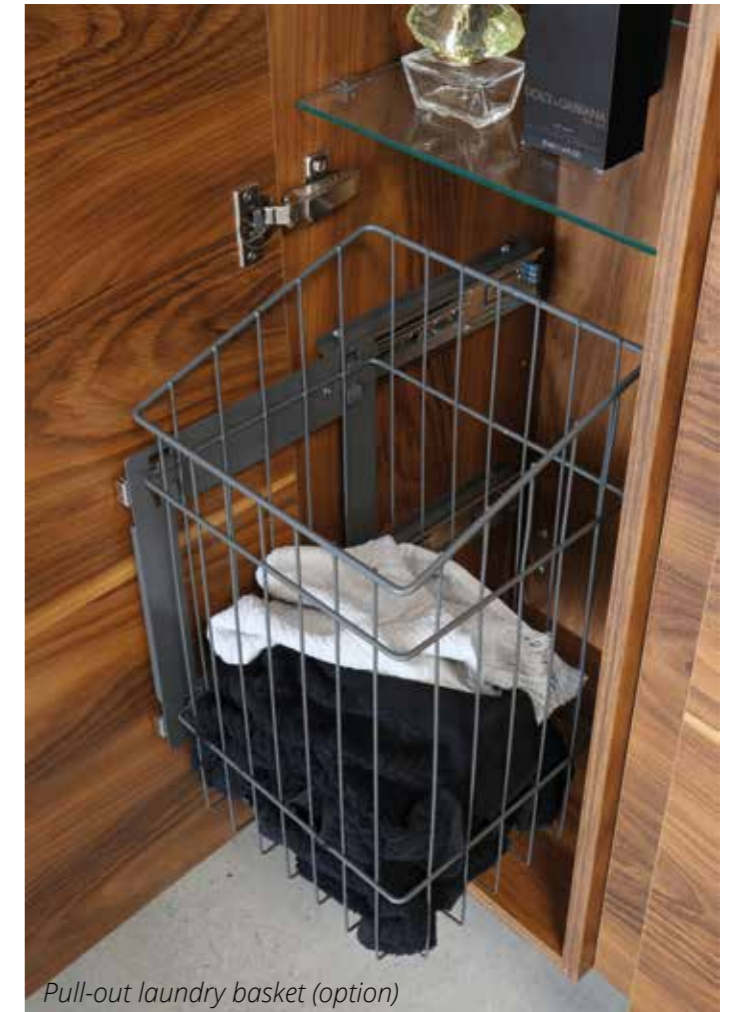

3x tall cabinet wood rim in walnut

Tall cabinet solid oak charcoal horizontal milled

Pull-out laundry basket (option)

3x tall cabinet handleless lacquered in matt white

2x semi-tall cabinets with handle in primitive grey

WALL SHELVES

The 3.5 cm thick wall shelves are available in two depths: 20 cm and 35 cm. The 20 cm version is extremely suitable for small items in the bathroom or toilet, easy to make yourself and supplied with facilities for blind mounting as standard. The 35 cm version is very handy for towels, for instance. We recommend using this deeper version in, for instance, a niche (with lateral support to prevent sagging).

The wall shelves are available in a number of fixed widths and also precisely tailored in the decor colours of the bathroom furniture with a wood rim.

2x wall shelves 20 cm deep in intense oak

1x wall shelf 20 cm deep in greige oak

3x wall shelves 35 cm deep in walnut

Carrying capacity

The load-bearing capacity of the wall board is determined by the fixing method and substrate. It is recommended that at least 2 sides be constructively supported and the weight evenly distributed.

Variable measurement

A deviation of 2 mm is reserved on wall shelves with a variable width.

Carrying capacity

The load-bearing capacity of the wall board is determined by the fixing method and substrate. It is recommended that at least 2 sides be constructively supported and the weight evenly distributed.

Variable measurement

A deviation of 2 mm is reserved on wall shelves with a variable width.

MIRROR CABINETS

The mirror cabinets from the INK collection can be combined with all INK base cabinets. In any decor, lacquer or wood colour. Massive and veneer. The mirror cabinets come with double mirrored doors, adjustable glass shelves and switch/socket. And, of course, expandable with LED lighting below and/or above. Such a mirror cabinet is ideal. All your bathroom utensils within easy reach.

MIRROR

Mirrors come in all designs, shapes and size. Often these run parallel to the size of the sinks and base cabinets. It must be crazy if you can't find a matching mirror here. We have it all. Rectangular, round, oval, organic. Large or small. With matted edges, LED lighting, heating, sensor switching, dimming function and colour changing. Besides the rectangular mirrors with a black powder-coated aluminum frame and integrated shelf, we also have mirrors with a coloured aluminum frame available in the colours: matt black, matt white, matt gold, brushed copper and brushed stainless steel. A tasteful and sophisticated addition to your new furniture.

SP 15 - Round mirror recessed in brushed stainless steel frame

SP 14 - Mirror in black frame with shelf

SP 24 - Round mirror recessed in matt black frame and direct LED lighting and colour-changing

SP 24 - Round mirror recessed in matt black frame and direct LED lighting and colour-changing

SP 21 - Oval mirror recessed in matt gold frame and indirect LED lighting

20 - Oval mirror recessed in matt white frame

SP 17 - Round mirror recessed in matt white frame and indirect LED lighting

SP 20 as a fitting mirror - Oval mirror recessed in matt white frame

SP 19 as a fitting mirror - Mirror rectangle recessed in matt black frame with direct LED lighting

SP 15 - Round mirror recessed in matt black frame

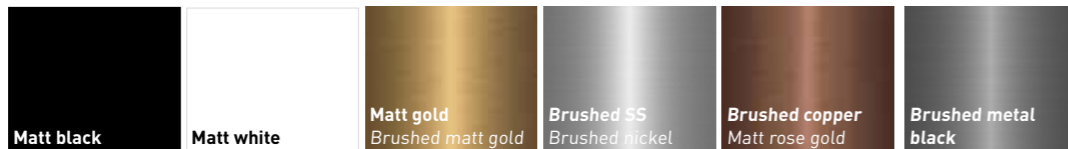

SP 23 - Mirror recessed in matt gold frame with organic shape with indirect LED lighting

MIRROR

Colour chart mirrors with frame:

Colours are in accordance with hand washbasin faucets collection. The physical distance between mirror frame and faucet provides a good colour experience. See page 476.

SP32 – Mirror recessed in frame with indirect LED, colour-changing (3000-6000K), dimmable, mirror heater and sensor switch. Mirror can be hung horizontally or vertically

* Brushed metal black available from mid-October 2023

LIGHTING

Many mirrors and mirror cabinets from the INK collection are equipped with integrated LED lighting. But we also have an extensive collection of surface-mounted lighting for the mirrors and mirror cabinets without this integrated lighting. The bathroom cabinet should not only be beautiful, functionality and atmosphere are just as important. By combining your mirror or mirror cabinet with an INK light source, you make the bathroom complete and, moreover, you make making up or shaving a lot easier. The LED lighting is available in colour values between 3000 and 6000 Kelvin. The newly added lights are equipped with the latest features such as a dimming function and 'colour changing'. If we want light everywhere, we also want it in the drawers of the bathroom cabinet. That too is possible nowadays.

FURNITURE ACCESSORIES

Clear and tidy

The interior of the furniture drawer is expandable with a plastic drawer division for neat storage of small items and ensures that all items stay in place and the drawer remains orderly. The standard colour of the drawer division is anthracite. The options depend on the width of the cabinets. A non-slip matt comes standard with each set.

Size details

Space-saving furniture siphon, supplied as standard (included in furniture price)

HAND WASHBASINS

The smallest washbasin for the smallest room

INK's extensive range of hand washbasins offers a solution for every toilet area. From a minimalist, sleek basin that can be freely hung to a complete wall arrangement including tap, siphon and plug. The corner hand washbasin is now also part of the options. At least a hyper-modern one! The hand wash basins are available in porcelain, polystone and quartz. Various models can be complemented with a handy base cabinet in many colours. But often with a modern steel frame for an even sturdier look and also handy for hanging up the towel. Of course, a modestly sized washbasin mirror should not be missing in the toilet either. With or without a steel shelf. Beautiful and handy at the same time. Because not only the hands need to be washed. We like to check whether the hair is still neat and the lipstick is still in place.

Carrying capacity

The load-bearing capacity of the wall board is determined by the fixing method and substrate. It is recommended that at least 2 sides be constructively supported and the weight evenly distributed.

Variable measurement

A deviation of 2 mm is reserved on wall shelves with a variable width.

Description	Measurement (w x d x h in cm)	Colours	Article number	Price incl. VAT

COLDWATER TAPS

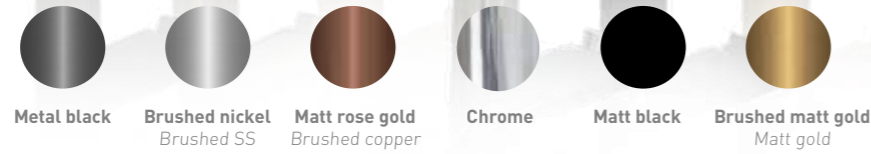

The toilet is also getting an increasingly beautiful look. With the modern coloured cold water taps that are made of high-quality brushed brass, you will make the toilet completely contemporary.

COLDWATER TAPS

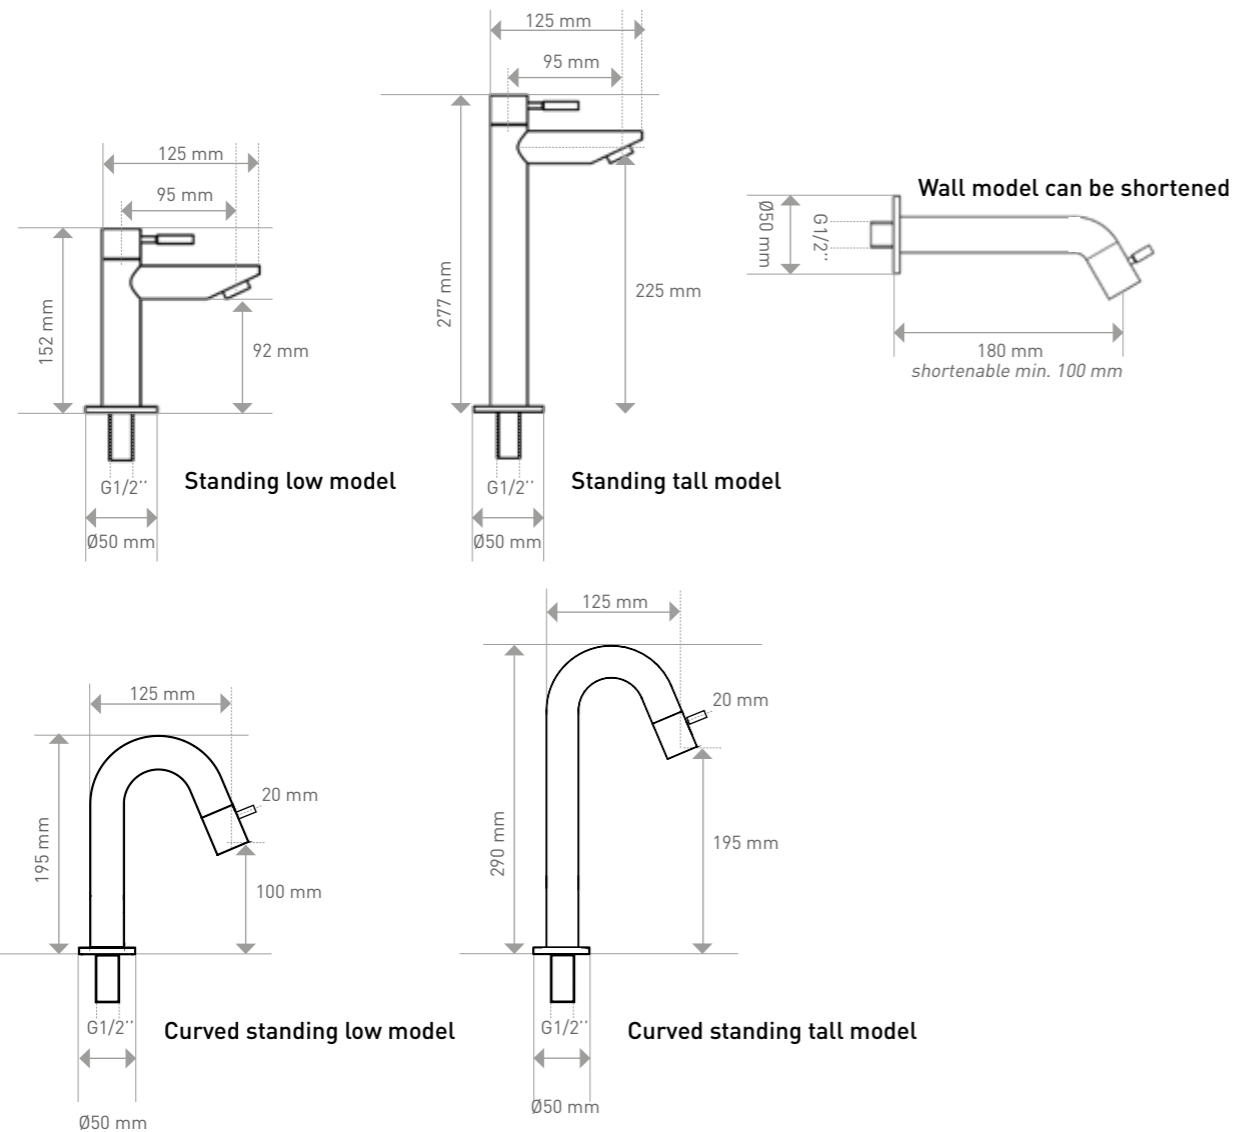

Colour overview taps:

Colours are in accordance with mirrors with frame. The physical distance between mirror frame and tap ensures a good colour experience. See page 348.

MAINTENANCE PRODUCTS

Care products for washbasins and bathroom furniture

Good maintenance ensures that washbasins and furniture last longer. This falls into the category: what is beautiful should stay beautiful. The maintenance articles offered in this price list are seen as sales support articles that facilitate daily use and cleaning and extend product life. To best serve the consumer, these items are seen as service support and therefore offered at a reduced and net retail price.

Offered at a discounted and net sales price

PORCELAIN

The surface of all ceramic/porcelain washbasins consists of a glazed, thin, glass-like layer. Ceramic is characterised by its user-friendliness and smooth surface. This does not mean that it is impervious to damage. Hard, falling objects can damage the glaze, leading to irreparable cracks and surface damage.

REMOVAL OF STAINS

For daily cleaning, you can use normal sanitary cleaners, such as all-purpose cleaners. Any limescale residue can be removed with commercially available limescale removers of the regular vinegar-based cleaning agents. These are the least aggressive and least harmful to the environment and our hands. The use of sand-based abrasives is not recommended. Frequent scrubbing with these agents will cause the top layer of the glaze, causing dirt to settle in the top layer. Chalk-based polishes can be used normally on ceramics because they are soft and have a polishing rather than an abrasive action.

CLEANING AND MAINTENANCE

For daily cleaning, we recommend conventional detergents or vinegar-based cleaners. For gentle but thorough cleaning, we recommend Cramer Email Keramik. Metal scrapes, often grey lines can be easily removed with the Cramer Bath-Rubber.

TREATMENT OF SCRATCHES

So ceramic is very scratch-resistant in normal use. But really deep surface scratches (usually caused by a severe impact with a heavy or sharp object) cannot be removed with conventional cleaning agents. Minor damage, on the other hand, can be repaired with the Cramer Touch-up Stick and the Cramer Reparatieset can be used for slightly larger damage and, for example, impact damage on washbasin edges.

POLYSTONE

Polystone sinks have a base of mineral fillers and a polyester/epoxy binder and are coated with a hard plastic top layer (gelcoat). They are easy to clean and keep clean with water and the usual supermarket cleaning products.

REMOVAL OF STAINS

Stains can easily be removed with a damp cloth or simply with water and a liquid dishwasher detergent, due to the smooth surface. Do not use chemicals such as bleach, hair dye or nail varnish remover/acetone. These agents can irreparably damage or discolour the washbasin.

Note: pointed falling objects can damage the surface. Mineral-cast composites are more sensitive to scratching than ceramic/porcelain and are not resistant to temperatures continuously exceeding 65 degrees Celsius.

Hard-to-remove stains and light, superficial scratches can also be removed using the Cramer Acryl-Mineral. The Cramer Touch-up Stick and the Cramer Repair kit can be applied to minor damage.

CLEANING AND MAINTENANCE

Mineral-cast composites should only be cleaned with a soft sponge/cloth and a sand-free liquid cleaner of the special polish.: Cramer Acryl-Mineral and detergent: Cramer Mineral-Cast-Cleaner.

QUARTZ

Quartz countertops are made of a so-called composite stone. That is, it consists of more than 93% of natural quartz grains and 7% of a pigmented plastic binder.

REMOVAL OF STAINS

It is important to remove spills immediately with plenty of warm water. It must be prevented from affecting the stone. Common mild household cleaners and a microfiber cloth can be used. Do not use caustic or aggressive cleaning agents. It is important to dry the surface well after use with a clean, soft cloth.

Note: A water softener can also damage the surface. The water softener should be set to DH3.

TREATMENT OF SCRATCHES
As with any type of stone, sharp objects can leave scratches. Often recognizable as white marks. These can be lightly rubbed with a so-called wonderspons which is available at every drugstore but also in the web shop. Rub with the sponge in circular motions until the scratch is no longer noticeable. Quartz sinks are treated with a protective coating from the factory. We recommend regular maintenance with specially developed products.

CLEANING AND MAINTENANCE

For the cleaning and maintenance of surfaces we have a special **Tenax Care Kit** available.

Tenax Care Kit (Quartz Textured Surfaces) contains:

QUARTZ AX CLEANER: concentrated acid descaler cleaner for removing stubborn dirt - 150 ml spray. For use in case of particularly stubborn dirt and limescale that cannot be removed with products for normal cleaning of quartz agglomerate surfaces..

BRIOTOP: ready-to-use Universal cleaner for easy and quick cleaning of all surfaces - 150 ml spray. [Also available in 1 liter packaging]

QUARTZ TONER: specific restorative stain agent for quartz (agglomerates) - 150 ml bottle. Protects quartz (agglomerate) surfaces against stains and guarantees a restoring effect of the colour of these surfaces..

CERAMIC SLABS AND MARBLE

Total clean cleaning kit includes a daily cleaner, an intensive cleaner and a microfiber cloth. Total Clean Daily. The daily cleaner comes in a spray bottle. This mildly alkaline cleaner is suitable for daily cleaning of all surfaces. The cleaner is suitable for removing light to medium soiling. Total Clean Daily can be used both indoors and outdoors. Total Clean Intensive. The intensive version of the Total Clean is a strong cleaner, suitable for removing stubborn dirt. The cleaner can be used on granite, marble, concrete, composite and ceramic. Can be used both indoors and outdoors.

MIRROR GLASS

The pore-free surface of glass is hygienic and easy to maintain.

REMOVAL OF STAINS

Glass can be cleaned with mild detergents and common glass cleaners. Chemicals or caustics should be removed immediately with water to protect the glass surface, edges and back of the mirror glass. Chemicals can also damage the silver coating. Scouring (with a scouring pad) and harsh rubbing can also damage the glass surface. Glass is a beautiful product but glass and lime do not mix well. Glass therefore requires extra care. Always dry the glass surface and edges well after use..

CLEANING AND MAINTENANCE

Glass should only be cleaned with a non-abrasive, soft cloth or sponge (do not use microfiber cloths, scouring pads and no abrasive cleaning agents). Glass surfaces should only be cleaned with neutral detergents, special glass cleaners such as the **Cramer mirror foam**, denatured alcohol or soap. The mirror foam does not drip and does not affect the back of the mirror glass.

LACQUER

High-gloss or matt lacquered bathroom furniture is made of MDF. During the production process they are coated with lacquer and then polished.

GENERAL DAILY MAINTENANCE

Clean with a soft dry cloth. To remove stubborn dirt use a damp cloth with warm water and a mild detergent. The surface should always be dried after cleaning. Never use abrasive, acidic, solvent-based or greasy cleaning agents. If the furniture gets wet, dry it as soon as possible. Never leave the furniture surface wet or damp for long periods of time.

Spilled chemicals such as descaling agents, nail polish remover, hair dyes, etc. should be removed as soon as possible. Damage such as scratches on painted surfaces are less water-resistant. To avoid swelling, extra caution is then required.

TREATMENT OF SCRATCHES IN LACQUERED FURNITURE

Deep scratches on the surface (usually resulting from a severe impact with a heavy or sharp object) cannot be removed with conventional cleaning agents. However, minor damages can be repaired with the **König Kantentouch-up pen/paint pen**. These paint pens are available in the colours of the bathroom furniture available in the range and are suitable for the opaque colouring of corners, edges, grooves, welds and 'muji teeth'. The lacquer is fast drying, has a high hiding power and is acrylic-based.

Oak has an open structure and absorbs moisture easily. Our real oak veneered furniture is finished with a mat lacquer in the colour Nature of with a two component coating of Rubio Monocoat Oil in the colours Aqua, Ash grey, Chocolate or Charcoal. Solid panel furniture is only coated with Rubio Monocoat in the colours mentioned above.

REAL WOOD; SOLID OR VENEER

When maintaining this furniture, a distinction is made between furniture that is natural (varnish) lacquered. This is only the veneered furniture. This transparent lacquered veneer furniture in the colour Nature requires basically no maintenance. Varnish is a colourless layer applied over all sides of the wood, making it waterproof. Actually the furniture is plasticized, so the properties of the lacquer of varnish protect the furniture. Please note that if the varnish layer is damaged, the wood may absorb moisture again. Scratches, damages or stains can unfortunately not be removed by yourself..

The furniture that has been coated with two-component Rubio Monocoat Oil - this can be the furniture that has been veneered and the furniture with solid oak panels - requires special maintenance products..

GENERAL DAILY MAINTENANCE

Real wood (solid or veneer) should be cleaned with a soft dry cloth. Abrasive or sharp objects should be avoided.

To remove stubborn dirt use a damp cloth with warm water and a mild detergent. The surface should always be dried after cleaning. Never use abrasive, acidic, solvent-based or greasy cleaning agents. If the furniture gets wet, dry it as soon as possible. Never leave the furniture surface wet or damp for long periods of time. Excessive contact with water can cause white patches to appear in the wood. Moisture will have entered the wood and opened it up. Also, lime stains may appear in the wood. In addition, oak black may develop stains when it comes into contact with metals. The metal reacts with the tannic acid present in the oak. Think of metal jars and also for example perfume which also contain metal particles.

Spilled chemicals such as descaling agents, nail polish remover, hair colouring, etc. should be removed as soon as possible. Damages such as scratches on solid, veneered or lacquered surfaces are less water-resistant. To avoid swelling, extra caution is required..

RUBIO MONOCOAT EASY CARE SET (STAIN SET)

This set contains 4 x 100ml bottles: : Monocoat Tannin Remover, Grease Remover, Limespot Remover and the Soap.

SOAP: Concentrated, extremely economical in terms of consumption.

TANNIN REMOVER: Black/too acid stains (e.g., circles/stains from cans, flower pots). Can also be used after water damage. Can be used on both untreated, oiled and waxed surfaces.

LIMESPOT REMOVER: Lime stains and other alkaline stains (e.g. urine, fertilizers, rust stains, chauffage water). Can also be used for white circles.

GREASE REMOVER: Grease stains (e.g. olive oil, French fry grease, chips, oil). Apply as soon as possible after occurrence of the stain to prevent penetration of the stain..

TREATMENT OF SCRATCHES AND DAMAGES - VENEER WITH NATURAL LACQUER OR VENEER WITH RUBIO COATING

In the treatment of scratches in veneered furniture, a distinction is made between furniture lacquered with natural varnish (colour Nature) and furniture coated with two-component Rubio Monocoat Oil in the colours Aqua, Ash grey, Chocolate or Charcoal.

Scratches and stains on varnished or coated solid or veneered wood furniture should be treated or repaired as soon as possible so that no further damage to the surfaces occurs. Lacquered and veneered surfaces age and colour may change over time. This is a natural process and cannot be stopped. Continuous exposure to UV radiation (such as direct sunlight) can accelerate colour change.

TREATMENT OF SCRATCHES IN SOLID FURNITURE

The solid furniture is protected and coloured with a two-component Rubio Monocoat Oil. The fully solid oak panels can always be sanded and can then be provided with a new layer.

TIPS TO AVOID PROBLEMS WITH VENEERED AND SOLID WOOD FURNITURE:

- Avoid using chemicals, such as chlorine, turpentine, etc.. near the furniture. When these types of fabrics are in contact come with furniture then there will be very difficult to remove spots arise.
- The use of harsh cleaning agents is also not recommended, as they affect the oil layer. Water forms for furniture with a Rubio Monocoat protection not a single problem.
- However, the surface should always be dried after cleaning.
- If the furniture gets wet, dry it as soon as possible.
- Never leave the furniture surface wet or damp for extended periods of time.
- Daily cleaning with water and soap is not recommended.
- Do not alternate furniture protected with Rubio Monocoat with other protection products.
- Furniture protected only with a natural varnish layer does not treat with Rubio Monocoat.

EXTRA GENERAL TIP!

Effective ventilation of the bathroom is important not only in maintaining the quality and appearance of the bathroom furniture but also in preventing many problems. Varnished, lacquered, laminated or oiled wood furniture can withstand some humidity, but it will not tolerate being kept in a humid condition all the time.
